Dutchman Industries

Dutchman's "Light Weight Spades" are the perfect solution to tight row spacing and and helps to complement the hand-dug plant segment. Built with the same longevity that you have come to know and trust with Dutchman, these spades are built at a specific weight that allows to be used on smaller mini skid steers and mini excavators. Spade sizes range from 20-inch to 28-inch but can be customized to your specific size and angle.

Dutchman Light Weight Tree Spades

Industry leader, when it comes to specialized nursery equipment.
